EDUCATION

ATENEO DE MANILA UNIVERSITY

Undergraduate Education - Bachelor of Science in Computer Science

QPI (GWA/GPA equivalent): 3.81 / 4.00 - Magna Cum Laude Standing

Relevant Coursework: Data Analysis, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Scholarships: Ateneo Freshman Merit Scholar (Top 60 Out of Over 10000 Applicants); DOST-SEI Merit Scholar

Quezon City, Philippines

Expected May 2028

PROFESSIONAL EXPERIENCE

SOFI AI TECH SOLUTION INC.

AI Developer Intern

- Built an internal QA interface for reviewing and evaluating AI chat outputs, enabling faster iteration on model behavior.
- Developed frontend tooling using Vue.js in a fast-paced startup environment focused on rapid shipping.
- Worked with Large Language Models (LLM) and Retrieval-Augmented Generation (RAG) pipelines.

Quezon City, Philippines

Dec 2025 - Feb 2026

SIP & SCALE

Software Engineer

- Developed and maintained the startup's public-facing website using Next.js, supporting the team's go-to-market presence.

Quezon City, Philippines

Feb 2026 - Present

MANAGEMENT INFORMATION SYSTEMS ASSOCIATION (MISA)

Associate Vice President for IT Skills and Development

- Headed an internal automation initiative (MISA Registration System) that reduced event registration time by 75%, now serving as the core system for all MISA events in the future.
- Spearhead a four-part web development workshop for 20+ student developers, empowering members to build advanced projects using Next.js and modern frameworks.
- Oversee external client projects to provide members with hands-on web development experience in real-world scenarios.

Quezon City, Philippines

July 2025 - Present

PROJECTS

PROJECT AGILA — MULTI-TENANT DIGITAL DOCUMENT APPROVAL SYSTEM

Aug 2025 - Present

- Developed a multi-tenant digital document approval and review system with configurable multi-section workflows, role-based access control, and real-time notifications using Next.js, React, TypeScript, and Supabase.
- Implemented a drag-and-drop form builder, workflow chain linking for multi-stage approvals, an auditor compliance view, and a real-time messaging system serving multiple organizations and business units.

MISA REGISTRATION & VOTING SYSTEM

Aug 2025 - Mar 2026

- Collaborated with a team to build a full registration and voting platform for 525 MISA members, resolving event workflow delays and reducing check-in time by 75% with live attendance for 15+ events using Next.js, React, Node.js, and PostgreSQL.

SALBAR — OFFLINE-FIRST EMERGENCY HEALTH PROTOCOL

Dec 2025 - Feb 2026

Top 5 / 200+ teams at Naga City's 1st Mayoral Hackathon

- Built an offline-first emergency health protocol for failure scenarios across the internet, power, and smart city systems. Uses AI prioritization for a triage system.

ADDITIONAL

Technical Skills: Next.js, React, Node.js, Vue.js, React Native/Expo, Python, C, JavaScript, TypeScript, PostgreSQL, SQLite, Supabase, Prisma, Strapi, Framer Motion, Git, GitHub, Django, Flask, Bootstrap, HTML, CSS, Convex, Claude Code

Languages: English and Tagalog

Certifications: Machine Learning Specialization – DeepLearning.AI, Stanford (Nov 2024); CS50's Introduction to Computer Science – Harvard/edX (Aug 2024)
